EVALUATION OF ALL PERSONNEL

Every employee has the right to know how well he/she is performing his/her job, and should be offered the opportunity of open and honest evaluation of his/her performance on a regular basis. Therefore, State Board Policy 5310 "Performance Evaluation of School Personnel" effective September 11, 2002, will be used in the evaluation of all professional employees and coaches of the Summers County Board of Education.

Copies of the evaluation policies may be seen in each school or at the board office.
